

Midvale Park Fitness Corner

We are excited about the renovation of the Headley/Midvale empty lot. As you know the declarant deeded this parcel to the HOA in November of 2007.

After much planning the Board of Directors has been working with a local landscape architect Gordon Darby to create a small park that would benefit the residents of Midvale Park. There are 10 exercise stations to help you improve or maintain good health. Picnic tables and benches are there for your use, with a ramada and water fountain coming soon. The water fountain has a pet bowl for your dog to use when you are taking your daily walk. Opening day is planned in June and as soon as we have a date you will be notified.

Hope to see you there!
